

***FREE: Health Education England Wessex Funded
RSPH Level 2 Understanding Health Improvement Training and Assessment***

Dear contractor

We are delighted to advise you that Health Education England Wessex have released **50** RSPH level 2 awards in Understanding Health Improvement for a member of your team to qualify as a Health Champion. This qualification is a mandatory requirement of the Healthy Living Pharmacy (HLP) quality criteria and you must ensure you have a full-time-equivalent (at least 35 hours) Health Champion to remain compliant with the criteria. If you plan to claim your quality payment in February 2019, then check to make sure you still meet all criteria and specifically trained and qualified Health Champions.

The training is being provided by local award-winning training company **Pharmacy Complete**, and on receipt of the following [completed enrolment form](#), they will send out the distance-learning workbook to your team member. Once the individual has completed their learning (around 6-8 hours) they can check their understanding through an online mock assessment and then request the formal papers which can be taken in the pharmacy under constant invigilation by a GPhC registrant.

Please note that the courses are limited and will be issued on a **first-come, first-served** basis. Only one course can be ordered per pharmacy in Wessex however additional courses can be purchased from Pharmacy Complete. HEE Wessex have released this funding and want to see learners through to qualification so please do ensure your learner is committed to completion before ordering. Health Champions are normally members of the pharmacy team such as a healthcare assistant or counter assistant but can also be a member of the dispensary team.

Finally, if you wish to have your Health Champion qualified in time for the QPS deadline, then they must complete the formal assessment by 5th February 2019, to allow for marking by the RSPH.

Please order quickly to avoid disappointment.

Kind regards
Deborah
