Please find attached details of the recent VirtualOutcomes on-line monthly training packages, just in case you have missed recent communications about them during the busy late summer and autumn period. These training packages are FREE to complete and are subsidised and supported for you by CPSC.

I have also included the information about Health Champion training, which is important to achieve for the newly disclosed **Quality Payments criteria** for reporting in February 2019 at the next review window. This training is provided at a subsidised rate (see below for details)

## Accredited Health Champion Training

Another option that you may wish to consider in enabling members of your team to become accredited Health Champions without the need to attend a meeting at an external venue.

This **VirtualOutcomes** on-line option is ideal if you are not able to take advantage of the currently advertised FREE training days provided by Health Education England Wessex and presented by **Pharmacy Complete**. The cost of the VirtualOutcomes on-line training is offered at a subsidised £55 per person.

**It is important to have Health Champions in your pharmacy and operate as a Healthy Living Pharmacy in order to qualify for the Quality Payments Scheme relating to this.**

Full details of both the VirtualOutcomes on-line training and the Pharmacy Complete training options are shown below:
