

CPCF Checklist

Friday 8th November 2019

PSNC is working to provide as much information and as many resources as possible to help community pharmacy teams to understand the details of the new Community Pharmacy Contractual Framework (CPCF) agreement as they are finalised in the ongoing negotiations.

This email is one of a series of recommended actions for community pharmacy contractors to help you to get ready for the introduction of all elements of the five-year CPCF. There is a lot to do and details will be coming out in stages, so this email series will help guide you through the process and highlight all of the resources and support available to you.

29. PQS: Plan to start your lithium audit (if not already started)

Additional resources to support community pharmacy contractors to meet the lithium quality criterion of the Pharmacy Quality Scheme (PQS) have now been published, so contractors may now want to consider when they are going to start completing the audit (if they have not already started).
