

## **Discharge Medicines Service (DMS) Reminder**

## Stage 1 MUST BE COMPLETED as a minimum for ALL referrals received.

## **Overview:**

Discharge Medicines Service is an essential service (contractual requirement for all community pharmacies) for patients when they leave hospital. It has 3 stages for the community pharmacy to potentially do.

A patient information leaflet has been developed for use within all local hospitals to help inform the patient of what to expect. There will be an expectation from the patient that the pharmacy will be contacting them. A copy of the leaflet can be found in the supporting documents drop down on the DMS website page:

https://cpsc.org.uk/professionals/nhs-contract/essential/discharge-medicines-service-dms ٠

### **Referrals:**

Local hospitals are making referrals via:

- St Mary's, Isle of Wight PharmOutcomes •
- UHS, Southampton PharmOutcomes •
- HHFT, Winchester & Basingstoke PharmOutcomes
- QA, Portsmouth nhs.net mail •
- Salisbury hospital, Salisbury PharmOutcomes •

#### The stages:

Stage	Description of process	Timescale	Who
1 DMS is received by	Check clinical information and actions.	Within 72	Pharmacist
the pharmacy	Are there any changes compared to pre-admission?	hrs (3	Pharmacist,
	Any issues identified to be raised with the hospital or surgery?	working	Pharmacy
(minimum service level required contractually)	Check for any outstanding prescriptions awaiting collection -are they still appropriate?	days).	Technician
2. The first prescription is received	Check medicines prescribed post-discharge take account of the changes made. Any discrepancies, resolve them with the GP practice.	7-28 days post- discharge	Pharmacist, Pharmacy Technician
3. Check of the patient's understanding of their new medicines	Check understanding of what medicines they should now be taking/using. Where appropriate, other services can also be provided e.g.	First post- discharge prescription	Pharmacist, Pharmacy Technician
regimen	New Medicine Service.		
Claim for service delivery	Submit claim on MYS along with Summary Data.	Monthly on MYS	

# What does PharmOutcomes look like & what do I need to complete?

Service continuation					
Patient likely to continue to stage 2 and 3? Patient unlikely to continue with service? - service complete					

If you are completing the DMS after stage 1 – select service complete here.

If continuing with stage 2 & 3 at a later date, use the partial save button on the top right of the screen page.

## **Claiming:**

NHS BSA are preparing a digital interface (API) to allow PharmOutcomes to send DMS claims automatically to the Manage Your Service (MYS) portal. This is not yet available for use but is expected early 2024.

Until then you can run a report on PharmOutcomes to get the data required for claiming, a guide on how to do is here:
