

**Ref: PH 314      Incident Reporting**

**Incident reporting of Controlled Drugs (CDs)**

Incidents/concerns involving CDs, including concerns regarding excessive or inappropriate prescribing, need to be reported via the web-based CD reporting tool. This tool makes reporting much simpler and consistent and trends can be identified more easily with learning from incidents shared in a timely manner.

The CD online reporting tool is now 'live' across the Country and organisations are required to record their concerns via the following website address:

[www.cdreporting.co.uk](http://www.cdreporting.co.uk)

In order to report CD incidents/concerns you will need to register on the website and as part of your registration process the region that should be selected is **Wessex**.

For help and advice please contact the controlled drugs team for NHS England Wessex via the following details:

Secure email address: [england.wessexcdao@nhs.net](mailto:england.wessexcdao@nhs.net)

Kind regards

*Tim*
